Sex lives beneath the waves: What they didn't tell you about in "Finding Nemo"

Dr. John Godwin
North Carolina State University

How do we define sex? What if you could change your sex? Dr. Godwin explains how certain fish populations bend the idea of immutable male/female sex labels.

Thursday, February 21st

111 Bryant Hall 4 - 5:30 pm

**Poster Presentations in Neuroscience
&
and Related Fields**

11 am - 4 pm
