

# Neuroscience Research Showcase Speaker

*Brain-immune crosstalk during critical developmental transitions: implications for health throughout the lifespan*

Dr Staci Bilbo  
Professor of Psychology and Neuroscience  
Duke University

What is the relationship between brain and body? Can how you are cared for as a child alter your psychological and emotional landscape?

March 24th  
4 - 5 pm  
111 Bryant Hall

Poster Presentations

11 am - 4 pm  
Bryant Hall Gallery
