

# ***Suicidal Behavior and the Brain: A Multidisciplinary Approach***

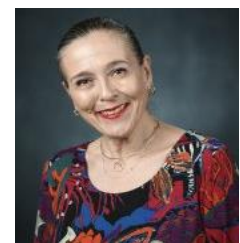

What drives people to attempt and commit suicide? Please join us and participate in this virtual Roundtable to discuss suicidal behavior from three different perspectives: brain research, clinical psychology, and counseling. We will learn how a distortion in brain function may contribute to suicidal behavior as well as new strategies to treat suicidal behavior and risk in our community.

**Aliona Tsyges, Ph.D.**  
Department of Psychiatry,  
University of Pittsburgh.

**Kristin Austin, Ph.D.**  
Department of Psychology,  
University of Mississippi.

**Juawice McCormick, Ph.D.**
